

HPE StoreEver LTO Ultrium Tape Drives

HPE StoreEver LTO-9 Ultrium 45000 Internal Tape Drive (BC040A)

What's new

- HPE StoreEver LTO-9 Ultrium 45000 Tape Drives are now available, capable of storing up to 45 TB (compressed 2.5:1) per cartridge
- HPE StoreEver LTO-9 Ultrium 45000 Tape Drives are available on as 12GB/s SAS interface

Overview

HPE StoreEver LTO Ultrium Tape Drives represent nine generations of linear tape open (LTO) technology capable of storing up to 45TB [1] per cartridge, with hardware data encryption, HPE StoreOpen with linear tape file system (LTFS) for ease of use at an unprecedented performance. Data hardware encryption using AES 256-bit provides easy-to-enable security to protect the most sensitive data and prevent unauthorized access of tape cartridges. LTFS is an open format for storing data on tape that makes LTO generation 5 and later tapes self-describing and file-based. Capable of data transfer rates up to 300 MB/s native, the data rate matching further helps optimize performance by matching host system speed to keep drives streaming, thus enabling a faster tape performance.

Features

Outstanding Capacity, Performance, Monitoring, Encryption, and File Sharing with LTFS

HPE StoreEver LTO Ultrium Tape Drives provide up to 45 TB[1] of compressed capacity on a single cartridge.

HPE StoreOpen software and LTFS allows customers to store data in an open format making the tape self-describing and file-based.

Enables even the tightest backup window to be met with higher quality performance.

Provides one of the highest level of security with encryption for strong backup data privacy to secure confidential information and address compliance quickly and with fewer cartridges.

Reliable, Well Connected, and Compatible

HPE StoreEver LTO Ultrium Tape Drives allows the tape drive to near-continuously adjust the speed of the drive to keep drives streaming to help maximize performance and reduce start/stops which significantly increase reliability of Hewlett Packard Enterprise drives and media.

SAS models qualified on Hewlett Packard Enterprise and non-Hewlett Packard Enterprise servers; including popular platforms from vendors such as Dell, IBM, and Oracle. See HPE StoreEver compatibility matrix on the right rail for more information.

Extensive list of supported backup and archiving software applications from Micro Focus, Veeam, VERITAS, Dell EMC, IBM, Commvault and many more.

Complete Solution Straight Out of the Box

HPE StoreEver LTO Ultrium Tape Drives provides HPE LTO media, cables, and user guides.

For IT organizations with stringent, long-term data retention requirements, WORM data protection capability offers a simple and reliable method for archiving records allowing customers to affordably meet the toughest industry compliance regulations.

Technical specifications

HPE StoreEver LTO-9 Ultrium 45000 Internal Tape Drive

Product Number	BC040A
Recording technology	LTO-9 Ultrium 45000
Drive type	Standalone HPE StoreEver LTO Ultrium Tape Drives
Capacity	45 TB compressed 2.5:1
Host interface	12 Gb/s SAS
Transfer rate	300 MB/s native maximum
WORM capability	Yes
Encryption capability	AES 256-bit
Form factor	5.25-inch half-height
Product dimensions (metric)	21.0 x 4.2 x 14.8 cm
Weight	1.45 kg
Warranty	3-year parts, no labor, no onsite support coverage.

[1] With HPE StoreEver LTO-9 and 2.5:1 compression

HPE Services

No matter where you are in your transformation journey, you can count on HPE Services to deliver the expertise you need when, where and how you need it. From strategy and planning to deployment, ongoing operations and beyond, our experts can help you realize your digital ambitions.

Consulting services

Experts can help you map out your path to hybrid cloud and optimize your operations.

Managed services

HPE runs your IT operations, giving you unified control, so can focus on innovation.

Operational services

Optimize your entire IT environment and drive innovation. Manage day-to-day IT operational tasks while freeing up valuable time and resources.

- HPE Complete Care Service: a modular service designed to help optimize your entire IT environment and achieve agreed upon IT outcomes and business goals. All delivered by an assigned team of HPE experts.
- HPE Tech Care Service: the operational service experience for HPE products. The service provides access to product specific experts, an AI driven digital experience, and general technical guidance to help reduce risk and search for ways to do things better.

Lifecycle Services

Address your specific IT deployment project needs with tailored project management and deployment services.

HPE Education Services

Training and certification designed for IT and business professionals across all industries. Create learning paths to expand proficiency in a specific subject. Schedule training in a way that works best for your business with flexible continuous learning options.

The Defective Media Retention (DMR) service feature option applies only to Disk or eligible SSD/Flash Drives replaced by Hewlett Packard Enterprise due to malfunction. Comprehensive Defective Material Retention (CDMR) allows you to keep all data retentive components.

HPE GreenLake

HPE GreenLake edge-to-cloud platform is HPE's market-leading as-a-Service offering that brings the cloud experience to apps and data everywhere – data centers, multi-clouds, and edges – with one unified operating model, on premises, fully managed in a pay per use model.
